published score: convergent
published score: divergent (and class divergent)
A Published score
B Dynamical class
C Period of periodic cells
S2-28011 (coarse)
log10 hidden-layer rate
42.2% scored convergent
log10 output-layer rate
D Published score
E Dynamical class
F Period of periodic cells
S2-28011-zoom (zoom)
99.98% scored convergent
screened period
G What the score-convergent cells of every coarse map are after 20,000 updates
S1-28001
S1-28002
S1R-28001
S1R-28002

S2-28012
29,697 cells; 99.97% not fixed points
31,192 cells; 99.82% not fixed points
25,627 cells; 89.7% not fixed points
23,697 cells; 87.1% not fixed points
27,659 cells; 94.0% not fixed points
27,623 cells; 91.1% not fixed points
fraction of cells the published score calls convergent (1,000 updates)
fixed point
periodic (p >= 2)
chaotic
drift (norm growth)
unresolved
late divergence
